ICT
Johan van der Heide

Finance & Accounting
Kristin Spierings

Call 3 Project Outline Preparation Days
Goals

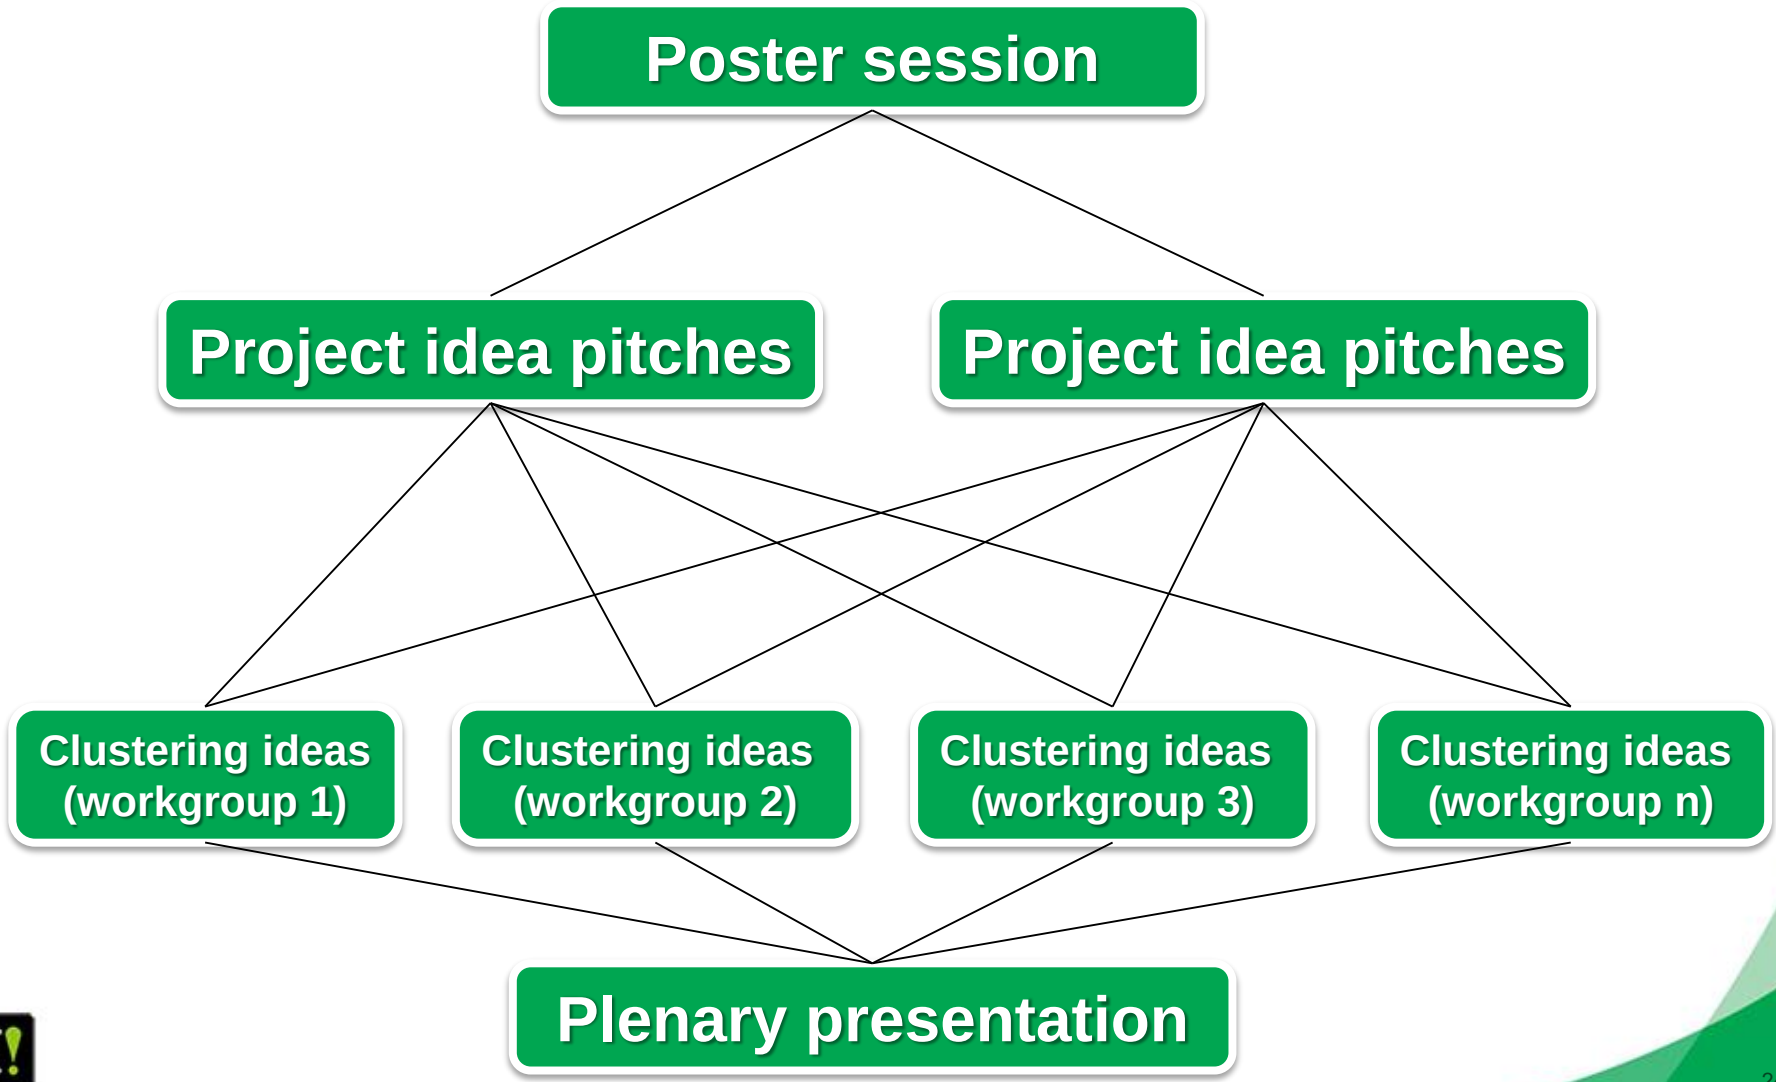
The 2-day event will enable you to:

1. Learn and discuss about new project ideas, via
   - The online networking tools, including the project idea tool, partner search and message board
   - A poster session
   - Parallel project idea pitch sessions
   - Workgroup sessions

2. Meet with participants from all over the world to define potential projects and form initial project consortia

3. Receive general information about ITEA and the Call process

Project grouping process
Visualisation Day 1



Project grouping process
Tuesday 13 September (Day 1)

- **Poster session** — Informal session ('Marketplace')
- **Project idea pitches** — In large parallel groups:
  - present project idea in max 4 min ('elevator pitch')
  - check interest and identify possible clustering of project ideas
- **Brainstorm session** — Start discussions in smaller workgroups to form the rough Project Outline and consortium
- **Plenary session** — Presentations of the first rough project outlines
  - use the 'Project Idea' template (USB)
  - max. 5 minutes per project idea
- **End of Day 1** — **Update your project idea status:**
  - **in the online project idea tool** must be done by the project idea leader – ITEA staff can assist)
  - **on the note poster** next to your project idea poster

Status updates will be shown on the displays

Group sessions
Wednesday 14 September (Day 2)

- **Group discussions (10:00)** Per project idea:
  - further define project outline and consortium
- **Group discussions (11:30)** Per project idea:
  - finalise project outline draft and form initial consortium
- **Plenary session (14:00)** Presentation of results (ideas & consortia)
  - present ‘Project Idea’ per cluster - max 5 min

Guidelines
Group Discussions

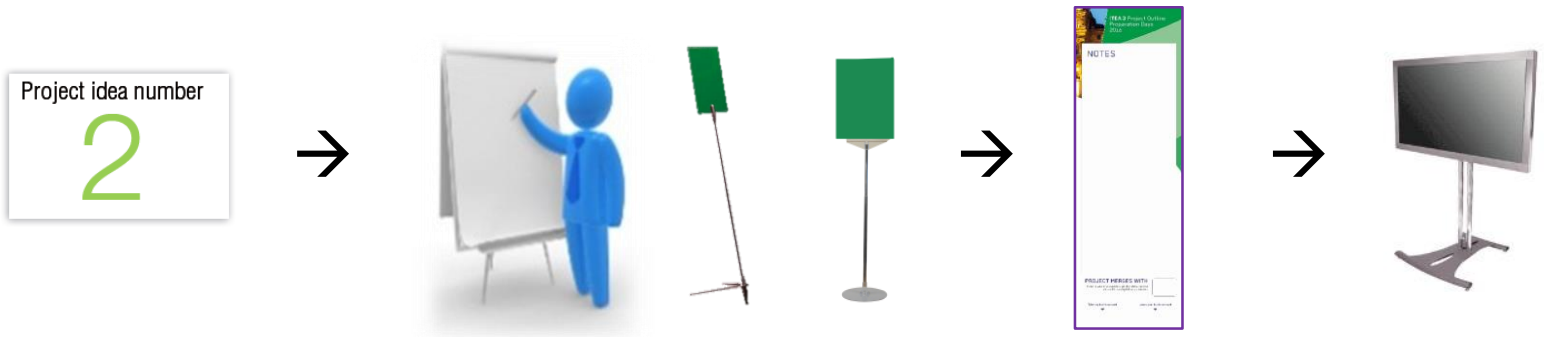
- Ensure there is a discussion leader (e.g. an experienced ITEA participant):
  - Take care of overall timing; stop non-relevant or too detailed discussions
  - Take care that key messages of the discussion participants are heard

- Discussion:
  - Make an inventory of project ideas, technologies and organisations
  - Cluster ideas while keeping focus
  - Share the business orientation and check the innovation from the beginning
  - Identify which organisations have a real added value
  - Avoid ‘Mega clusters’ of ideas; split up if needed

- Wrap Up:
  - Define follow-up actions
  - Assign a contact person and presenter per cluster
  - **Complete ‘Project Idea’ template (USB) per cluster and deliver it to Erik Rodenbach 15 min. before start of the plenary session**

Group discussions
Room allocation

- No room reservation: first come, first served
- Clearly indicate your project idea number(s) using the signage posts, flip charts, etc.
- Indicate your positioning on your ‘Notes’ poster and put a comment beneath your project idea online



- Room allocation / group positioning will be displayed on the displays (e.g. at the registration desk) and on the PO Days webpages.

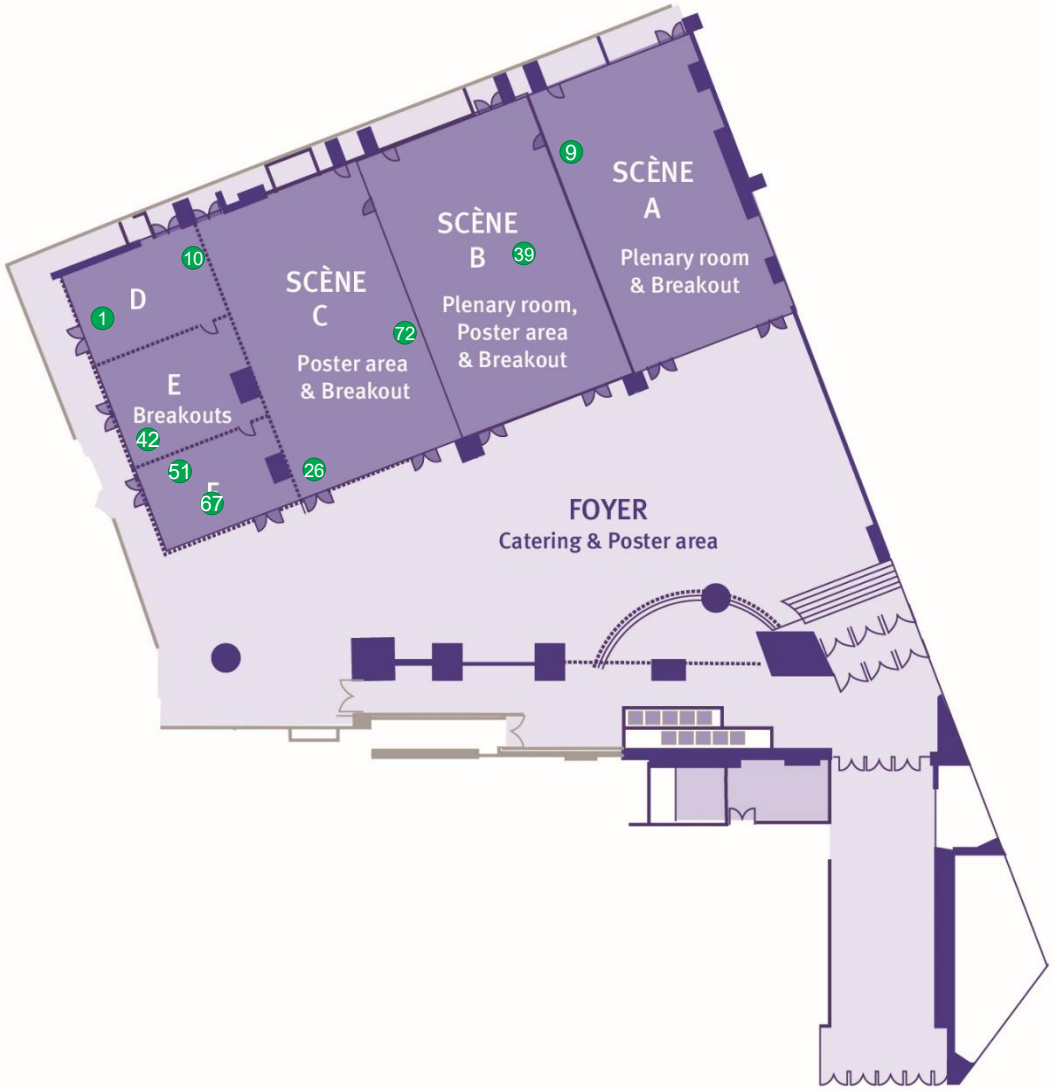
Practical features
Online networking tools

- The PO Days webpages are accessible via https://itea3.org/podays2016/index.html and via your smartphone by scanning the QR code on your badge. Here you can find:
  - Getting started page with the online networking tools:

  - PO Days participant finder

Practical features

Screen floor plan including group allocations (example)



Overview of documents
USB stick (and online)

- PO Days documents:
  - PO Days how-to form
  - Project idea posters submitted by participants (before the event)
  - Programme & floor plan
  - Participants list with contact details
  - Plenary ITEA presentations
  - Project pitch session overviews
  - **Project idea PPT template** *(for the different plenary project idea presentations)*
  - Project pitches (online in project idea tool)

- Call documents:
  - Call process & Time schedule
  - ITEA Contribution Rules 2016
  - ITEA Rules & Regulations
  - ITEA Project Outline kit (guidelines/template)

- ITEA publications:
  - ITEA Magazines
  - ITEA Brochure
  - Link to High Level Vision 2030 v2013
  - Link to the 12 Years of ITEA
