List of Publications

Citable publications, e.g. books, journals, conference proceedings, patents, standards,….

2021

2020

[8] Bert Van Acker, Bentley James Oakes, Mehrdad Moradi Paul De Meulenaere and Joachim Denil (2020). "Validity Frame Concept as Effort-Cutting Technique within the Verification and Validation of Complex Cyber-Physical Systems”. In 17th Workshop on Model Driven Engineering, Verification and Validation (MoDeVVa)

2019

Control Systems Letters, 3(4), 817-822. The contents of this paper have been presented at 58th IEEE Conference on Decision and Control.

[34] Bert Van Acker, Paul De Meulenaere, Joachim Denil, Yuri Durodie, Alexander Van Bellinghen, Kris Vansteelandt (2019). "Valid (re-) use of models-of-the-physics in cyber-physical systems using validity frames". In 2019 Spring Simulation Conference (SpringSim), Tucson, AZ, USA.

2018

2017 and before

Other Disseminations

Presentations at marketing events, customer presentations, other related promotions,…

2019

2017 – 2020

P Chombart (Dassault Systemes) : EMPHYSIS project DS internal promotion has been done in our Dassault Systemes internal CATIA community (several hundreds of members). 7 posts published to relate the progress of EMPHYSIS, from 2017 to 2020.
