## Borçelik

Borcelik is Turkey's largest and most modern producer of galvanized steel. Borçelik started its activities in 1994 to produce "cold-rolled steel sheet coils". Borçelik continues its activities under the partnership of Borusan Holding and ArcelorMittal, one of the largest global steelmakers. The company's strong market position is based on dynamic labor force, innovative approach, continuous investment for self-development and growth, customer-oriented service and quality approach.
