- **15 February 2018** : **Deadline for submission of FPPs**
- 22 March 2018 : Announcement of labelling results

General Rules & Recommendations

- ITEA projects are industry driven, technically innovative and focused on business results.
- The EUREKA rules that are applicable to the ITEA projects and partners include the following:
 - Project consortia need to have at least two different organisations from two different countries (one must be a EUREKA Member Country and another one either a EUREKA Member Country or a EUREKA Associated Country).
 - The Project Leader must be from an organisation established in a EUREKA Member Country or a EUREKA Associated Country
 - Partners from non-EUREKA countries may participate in a project provided all participants agree
- For more information check the Rules & Regulations on your USB key or on the ITEA Community website (*Documents & templates / Programme Documents / Legal Documents*)

Labelling and Public Funding

- The ITEA label implies that the ITEA organisation recommends the project to the Public Authorities (PAs) for public funding.
- From ITEA 3 Call 3 (labelled on 17 March 2017) onwards, the ITEA label awarded to an ITEA project automatically expires after 10 months when the project has not started within this period, unless the ITEA BSG and ITAC jointly decide otherwise.
- An ITEA label, however, does not automatically imply funding for the project; each partner must apply for funding in its own country.
- The rules for national application submission, eligibility criteria and funding possibilities differ per country and may change over time.
- Contact your national funding contact for specific national recommendations and funding possibilities: <https://itea3.org/funding.html>.
 - A project leader should monitor the funding status of each partner country

Public funding is not a pre-requisite for a partner to participate in a project.

Thank you for your attention
